Product Specification Sheet

Targus Presentation Remote

Part #: AMP18EU

Product Description:

Take the stress out of presentations with the Targus presentation remote. Thanks to its 2.4GHz cordless technology, you'll be free to move around and control your Microsoft PowerPoint™or Apple Keynote™ presentati remotely, without wires and cords getting in the way. The Targus Presentation Remote provides the easiest way to give presentations. The presentation remote couldn't be simpler to use, even if you've never used one before. It fits neatly into the palmof your hand and with just two buttons, there's no danger of pressing the wrong key or getting confused. You'll be free to focus on your actual presentation, rather than the remote. Themini USB receiver stores neatly inside the remote when it's not in use for added convenience, so it won't get lost or damaged. There's no need to worry about losing power part-way through your presentation. Should your AAA Energizer® MAX® battery run out, there is a back-up battery compartment where you can store a spare battery.Whether you havea Mac, PC or Netbook, this presentation remote is perfect for stress-free, professional-quality presentations.
